

Proyecto-Picasso
El Cubismo
Instrucciones por Pasos

Van a crear una obra cubista, como Pablo Picasso. Aquí están las instrucciones que necesitas seguir, paso a paso.

- i. Take a household or everyday object and place it on a table.**
- ii. Then, walk around the object and draw various parts of it separately from different angles, in pencil on the cards provided (eg: object-pencil: eraser on one card, shaft on another, etc).**
- iii. Next step is to arrange all the cards with the parts of the objects together, side by side or above and below each other (like puzzle pieces); these cards must be OUT of realistic order. Do this step on a flat surface.**
- iv. Then, draw the newly created view of the object (pieces put together in a new way), in color.**
- v. I will be collecting this drawing. I will be also collecting the cards stapled to the corner of the completed work of art.**
